“Target high books helped me a lot in my norcet journey. When it come to practicing IBQ i think the book is enough. The content covered in the books also help me a lot in clearing my concept. I strongly recommended target high book for norcet preparation. Thank you so much.”

“For NORCET preparation, I found Target High the best book covering all the topics in the most comprehensive manner. Target High's MCQs gave me best possible exposure to what the real question paper will be. Given that paper was more practical based, it covered each topic in the best possible way, pictures, tables, and whole of the syllabus was covered in easy way. I give good credit of my success to Target High”
