# Preface

The current **Logbook** for Ist Professional MBBS encompasses the competencies and Early Clinical Exposure sessions from Biochemistry. The logbook has been designed keeping in mind the requirements of the new Competency Based Medical Education (CBME) Curriculum.

Individual departments have the flexibility to decide the list of competencies to be included in this logbook and specify the maximum number of attempts allowed for each activity. Adequate space is provided to enter the details of the competencies and activities, the details of remedial training (if any), the rating for each attempt at the activity and the final decision of the faculty. The assessment scale has only two ratings, 'Scope for further improvement' and 'Satisfactory'; thereby emphasising on positive motivation for all students.

A total of 30 hours have been allocated to Early Clinical Exposure (ECE) sessions in Biochemistry in Ist professional MBBS. The section on early clinical exposure is designed as a reflective portfolio with space for reflection writing by the student learners.

“Wish you all the best for your academic journey in medical college.”
