

Competency Based Logbook and Clinical Manual in Otorhinolaryngology

for Second and Third Professional MBBS

This logbook and clinical manual aims to provide a ready format to record the activities, competencies, short cases, long cases, instruments and skills in Otorhinolaryngology. Combined with reflection writing, the records can be used for formative and continuous assessment of the learners. We hope that this logbook will serve as a stimulus to encourage self-directed learning among undergraduate students.

Salient Features

1. Simple tabular format for recording the activities conducted and competencies and skills acquired
2. An assessment scale included after every long case for regular, formative assessment
3. Reflective Portfolios for important topics to encourage reflection writing
4. Separate sections for SBT (Simulation Based Teaching), AETCOM (Attitude, Ethics and Communication) and Integration.

Niket Verma MBBS, MD is currently Assistant Professor, Department of General Medicine, Army College of Medical Sciences, Delhi Cantt, New Delhi. He takes keen interest in the academic and research activities of his department and has completed the Advance Course in Medical Education conducted by the Medical Council of India (MCI). He is a member of the Medical Education Unit of his college and is actively involved in the implementation of the new Competency Based Medical Education Programme for MBBS undergraduates.

He is pursuing the prestigious FAIMER Fellowship and has authored the *Logbook for Foundation Course for MBBS Students*; *Competency Based Logbook in Anatomy, Physiology, Biochemistry and ECE for First Professional MBBS* and numerous articles from the field of medical education.

Poonam Agrawal MBBS, MD is Professor and Head, Department of Biochemistry, Dr Baba Saheb Ambedkar Medical College and Hospital, Rohini, New Delhi. She has completed the Advance Course in Medical Education conducted by the MCI and has authored several books and research papers. She is a member of the Medical Education Unit of her college and is actively involved in the implementation of the new Competency Based Medical Education Programme for MBBS undergraduates.

She has written many other books like *Practical Biochemistry with Clinical Correlation for MBBS Students*; *Concepts in Biochemistry*; *Review in Biochemistry for NEXT based on latest PGME pattern*; *Competency Based Logbook in Anatomy, Physiology, Biochemistry and ECE for First Professional MBBS* and *Logbook for Foundation Course for MBBS Students* all brought by CBS&D.

Arjun Singh Doshad MBBS, MS is currently Assistant Professor, Department of Otorhinolaryngology, Government Medical College, Srinagar, Uttarakhand. He takes keen interest in the academic training of undergraduate students. He has published numerous articles and is actively involved in implementing the new competency based medical education curriculum in his college.

Although all efforts have been made to ensure optimum accuracy of the material, yet it is quite possible some errors might have been left uncorrected. The publisher, the printer, and the authors will not be held responsible for any inadvertent errors or inaccuracies.

Preface

This logbook and Clinical Manual has been designed keeping in mind the requirements of the new Competency Based Medical Education (CBME) Curriculum.

Individual departments have the flexibility to decide the list of competencies to be included in this logbook and specify the maximum number of attempts allowed for each activity. Adequate space is provided to enter the details of the competencies and activities, the details of remedial training (if any), the rating for each attempt at the activity and the final decision of the faculty. Separate sections have been designed for recording short cases, long cases and instruments. An assessment scale has also been included after every long case for regular, formative assessment.

Separate sections have also been designed for SBT (Simulation Based Teaching), AETCOM (Attitude, Ethics and Communication) and Integration. Each section is followed by Reflective Portfolios with ample space for reflection writing by the student learners.

Introduction

The Competency Based Medical Education (CBME) curriculum for undergraduate medical education was introduced in the academic year 2019–2020. The new curriculum has brought about a fundamental change in the system of medical education in our country. There is greater emphasis on alignment and integration of the various subjects, on the acquisition of specific competencies and essential skills and on the assessment 'for' learning. Maintaining a record of the activities conducted and the competencies and skills acquired is now a mandatory requirement.

This Logbook and Clinical Manual aims to provide a ready format to record the activities, competencies, short cases, long cases, instruments and skills in **Otorhinolaryngology**. Combined with reflection writing, the records can be used for formative and continuous assessment of the learners. We hope that this logbook will serve as a stimulus to encourage self-directed learning among undergraduate students.

Salient Features

1. Simple tabular format of the templates for recording the activities, competencies, short cases, long cases, instruments and skills
2. Flexibility to record the competencies decided by individual departments
3. An assessment scale included after every long case for regular, formative assessment
4. Reflective Portfolios for important topics with encouragement of reflection writing and recording the details of assignments and assessments
5. Separate sections for SBT (Simulation Based Teaching), AETCOM (Attitude, Ethics and Communication) and Integration.
