

# Clinical Case Studies in Anatomy

An Integrated Approach with Reasoning and Structured Question Answers

## Salient features

1. Written in simple and easy language to help students understand the clinical problems.
2. Presentation of clinical problems set in the form of questions and their explanations for better understanding and remembering the topic by the students.
3. Frequently asked questions are helpful in covering the topic completely.
4. Appropriate clinical diagrams have been introduced for better perception and comprehension.

## Poonam Delmotra MBBS MS

is Professor and Head, Department of Anatomy, Adesh Medical College and Hospital, Kurukshetra, Haryana. She has 16 years of experience in teaching and research. She is a member of medical education unit at AMCH. She has to her credit 12 papers published in national and international journals. She is a life member of Society of Clinical Anatomists, North Chapter of Anatomical Society of India. She is very passionate and dedicated teacher.

## Archana Goel MBBS MD

is Professor, Department of Anatomy, Adesh Medical College and Hospital, Kurukshetra, Haryana. She has 10 years of experience in teaching and research. She is a member of medical education unit at AMCH. She has to her credit 22 papers published in national and international journals. She is a life member of Society of Clinical Anatomists, International Pacific Academy of Forensic Odontology and North Chapter of Anatomical Society of India. She is quite concerned about introducing new innovative ideas in teaching and learning.

**Disclaimer**

Science and technology are constantly changing fields. New research and experience broaden the scope of information and knowledge. The authors have tried their best in giving information available to them while preparing the material for this book. Although, all efforts have been made to ensure optimum accuracy of the material, yet it is quite possible some errors might have been left uncorrected. The publisher, the printer and the authors will not be held responsible for any inadvertent errors, omissions or inaccuracies.

## Preface

**C**linical case studies are integral part of early clinical exposure (ECE). ECE has been introduced in the subject of anatomy in MBBS phase I as per the competency based medical education (CBME) of undergraduate curriculum for Indian medical graduate. This book on clinical case studies in anatomy which is first of its kind has been designed to introduce the clinical problems related to core competencies of anatomy. This is an integrated approach to understand various clinical problems with reasoning and structured questions and answers. This book will enhance the students thinking ability to apply the anatomical knowledge in various clinical aspects. In addition, this book includes many frequently asked questions in university exams. So, this book will be definitely a boon to ECE anatomy learning.

## Acknowledgements

**F**irst of all, we express our sincere gratitude to the Almighty whose eternal blessings help us to fulfil our commitment. We sincerely thank to our Honourable Chairman Dr HS Gill and Principal sir Dr BL Bhardwaj for continuously inspiring us to complete this task. We extend our thanks to our colleagues from the department of anatomy at Adesh Medical College and Hospital, Mohri, for their valuable suggestions for making this book student friendly.

We wish to express our thanks to CBS Publishers and Distributors for showing trust and confidence in us for carrying out this proposal.

While preparing this book we cannot forget the contribution of our department clerk Miss Geeta Rani for her immense help in computer work.

We are also thankful to our family members for continuous encouragement and support while writing this book.

**Poonam Delmotra**

Preface

v

<b>1. Upper Limb</b>		
<i>Sr. No.</i>	<i>Topic</i>	<i>Page no.</i>
1.	Breast Cancer	1
2.	Serratus Anterior Muscle	3
3.	Erb-Duchenne Palsy	4
4.	Klumpke's Paralysis	5
5.	Median Cubital Vein	5
6.	Dislocation of Shoulder Joint	6
7.	Frozen Shoulder	7
8.	Carpal Tunnel Syndrome	8
9.	Ulnar Nerve Injury	9
10.	Radial Nerve Injury	9
11.	Anatomical Snuffbox	10
12.	Whitlow	12
<b>2. Lower Limb</b>		
1.	Femoral Hernia	13
2.	Femoral Triangle	16
3.	Lurching/Waddling Gait	17
4.	Intramuscular Injection in Glutei	18
5.	Sciatica	19
6.	Fracture Neck Femur	20
7.	Hip Joint	22
8.	Knee Joint	23

<i>Sr. No.</i>	<i>Topic</i>	<i>Page no.</i>
9.	Popliteal Aneurysm	25
10.	Foot Drop	26
11.	Anterior Compartment Syndrome	27
12.	Flat Foot	29
13.	Deep Vein Thrombosis	30
14.	Varicose Veins	31
<b>3. Thorax</b>		
1.	Pleural Effusion	33
2.	Foreign Body in Bronchus	35
3.	Aspiration Pneumonia	36
4.	Covid Pneumonia	38
5.	Apical Lung Carcinoma	39
6.	Bronchiogenic Carcinoma	40
7.	Mediastinal Syndrome	42
8.	Pericardial Effusion	43
9.	Angina Pectoris	44
10.	Myocardial Infarction	45
11.	Atrial Septal Defect	47
12.	Coarctation of Aorta	49
<b>4. Abdomen and Pelvic Cavity</b>		
1.	Inguinal Hernia	51
2.	Peptic Ulcer	53
3.	Pyloric Stenosis	55
4.	Cirrhosis of Liver	56
5.	Cholelithiasis: Gall Stones	57
6.	Spleen Rupture	58
7.	Diaphragmatic Hernia	59
8.	Appendicitis	60
