

Handbook of Surgery

comprehensively covers clinical surgery and related orthopedics through algorithms and flowcharts for an easy and quick revision of the subject by both undergraduate and postgraduate students before their examinations. It will equally be extremely useful as a handy reference to the young practising clinicians.

The *Handbook* aims to serve as a companion to *Textbook of Surgery* written by the same author. Both the books together will impart a thorough knowledge of surgery to the undergraduate and postgraduate students.

The book also contains colorful algorithms and flowcharts of different aspects of general surgery, GI tract and urological diseases. It also has algorithms for managing most surgical cancers. Towards the end of the book about 50 instruments and 50 X-rays are described for help during the practical examinations.

As a computer and our human brain assimilates and memorizes and recalls algorithms and flowcharts much more easily, the book is uniquely presented in this format.

Both the *Handbook of Surgery* and *Textbook of Surgery* are aimed at not only helping the students get through their examinations with high scores but also lend them a solid and strong foundation in surgery.

Kailash R Gindodia MS

is currently Professor and Head, Department of Surgery, ACPM Medical College, Dhule, Maharashtra. He completed his MS in general surgery from the prestigious Grant Medical College and JJ Hospital, Mumbai. He received various scholarships during his undergraduate and postgraduate days. He has presented various research papers in conferences and has to his credit several publications. He has written several books on surgery and is a popular teacher at both undergraduate and postgraduate levels. His other book *Textbook of Surgery*, a comprehensive textbook of general surgery has been published by CBSPD, and e-book *Mindmaps in Surgery* is available on Amazon Kindle.

My family who supported and encouraged me in all my endeavours

*My respected teachers who gave me the knowledge and wisdom to perform,
teach and write*

My students and my patients who encourage me to keep on learning

Preface

Friends, recently I published my first book 'Textbook of Surgery', according to the latest CBME guidelines by the NMC. The book is receiving a good response from the students and critical acclaim from the surgical faculty. I thank all for good response.

Handbook of Surgery is born out of my desire to have a comprehensive rapid revision book on general surgery.

In this book, clinical examination, symptom management, surgical conditions management, management of various cancers are presented by way of algorithms. Algorithmic pattern is the way by which computers and our human brain work. It facilitates easy and better understanding, assimilation and recall.

This book comes to you with various algorithms/flowcharts/mindmaps for various clinical examinations in general surgery, orthopaedics and surgical problems.

At the end, two chapters containing 50 instruments and 50 X-rays are included.

Hope you find this book very helpful in quick revision and recall during your clinical postings and before all your exams and also very handy in day-to-day practice.

Hope this book not only serves the budding undergraduate students but also shall be a great help to the postgraduate students and a reference book for the practitioners.

Constructive criticism and suggestions are always welcome to improve the future editions.

Acknowledgements

I am happy to bring out this first edition of *Handbook of Surgery*. I sincerely thank all who have helped me in bringing out this book.

My respectable teachers, Dr TE Udawadia and Dr AR Undre for teaching me surgical skills and blessing me for my book.

Dr Bhaidas C Patil, the Dynamic Chairman of our ACPM Medical College for blessing me in this endeavour. Dr Nandkishor Goyal, Professor of Orthopedics, to help me with flowcharts of Clinical Orthopedics.

I express my acknowledgement, appreciation and gratitude to the various resources which were consulted in the writing of this book. Some images, tables and flowcharts or algorithms are taken from these resources and I express my gratitude for the same.

I also thank my residents, Dr Jagruti, Dr Durga, Dr Nirav and Dr Mayur for help in writing this book. A special mention of my undergraduate student Mr Mohammad Usman for his help with his computer softskills.

I am indeed indebted to CBS Publishers & Distributors for presenting my efforts in the form of a good book.

Kailash R Gindodia

Contents

Preface

vii

SECTION I: ALGORITHMS FOR CLINICAL SURGERY

1. Introduction to Clinical Surgery	2
2. General and Systemic Examination	4
3. Examination of Swelling	5
4. Examination of Ulcer	8
5. Inguinal Hernia	13
6. Hydrocele	20
7. Examination of Breast	22
8. Thyroid	31
9. Examination of Neck Swellings (Excluding Thyroid)	37
10. Examination of Abdomen and Abdominal Lump	40
11. Examination for Varicose Veins	49
12. Examination for PVD	51
13. Amputation Stump and Stoma	56
14. Orthopedics	58

SECTION II: ALGORITHMS FOR GENERAL SURGERY

15. Shock	72
16. Burns	79
17. Primary Trauma Care	82
18. Head Injury	86
19. Wounds	90
20. Preoperative and Anesthesia Related Flowcharts	95
21. Pain Management	99
22. Grafts and Organ Donation	104
23. Surgical Nutrition	106
24. Surgical Ethics, Audit and Research	108
25. Chest and Abdominal Injuries	110

26. Diagnostic Modalities for Abdomen	115
27. Peripheral Nerve Diseases	116
28. Skin Diseases	118
29. Adrenals and Neuroendocrine Tumors	121
30. Oral and Oropharyngeal Cancers	125
31. Tropical Diseases	127
32. Treatment for DVT	134

SECTION III: GASTROINTESTINAL TRACT

33. Introduction to Clinical Surgery	136
34. Esophagus	141
35. Stomach—Duodenum	146
36. Liver	150
37. Gallbladder—Biliary Tree	164
38. Pancreas	168
39. Spleen	174
40. Small Intestine—Intestinal Obstruction	177
41. Appendix	185
42. Large Intestine	188
43. Rectum—Anal Canal	192
44. Bariatric Surgery	196

SECTION IV: UROLOGY

45. Upper Urinary Tract	200
46. Lower Urinary Tract	211
47. Testis and Scrotum	216

SECTION V: CANCERS

48. General Oncology	218
49. Esophageal Cancer	221
50. Stomach Cancer	222
51. Pancreatic Cancer	223
52. Hepatocellular Carcinoma	224
53. Gallbladder Cancer	227
54. Colon Cancer	228
55. Rectal Cancer	229

56. Anal Cancer	230
57. Oral Cancer Management	231
58. Salivary Gland Malignancy	232
59. Lung and Other Chest Cancer	233
60. Renal Cell Carcinoma (RCC)	237
61. Transitional Cell Carcinoma	239
62. Wilm's Tumor 1 (Nephroblastoma)	240
63. Wilm's Tumor 2	241
64. Urinary Bladder Cancer	242
65. Prostatic Cancer	243
66. Management of Testicular Tumors	245
67. NSGCT Stage 1 Management	246
68. NSGCT Stage 2 Management	247
69. Advanced NSGCT or Stage 3 Seminoma	248
70. Seminoma Stage 1 Management	249
71. Seminoma Stage 2 Management	250
72. Penile Cancer	251
73. Breast Cancer Treatment	252
74. Retroperitoneal and Soft Tissue Sarcomas	256

SECTION VI: INSTRUMENTS

75. History and Introduction	258
76. Classification of Instruments	259
77. Parts of the Instrument and Scheme of Description	260
78. Instruments in Detail	262
79. Methods of Autoclaving and Sterilization	276

SECTION VII: X-RAYS

80. Introduction	278
81. Chest X-rays	280
82. Abdominal X-rays	284
83. Special and Contrast X-rays	290
