Preface

It brings us great joy to create this MSc nursing logbook. First and foremost, we would want to express our gratitude to Lord Almighty for His beautiful blessings, which enabled us to complete this record book on time. Nursing is a noble service to individuals, families, and society. It relates to both art and science, and shapes a nursing student's mindset, intellectual competences, and practical skills. Nursing practice comprises promotional, preventative, curative, and rehabilitative aspects of care to people of all ages in a range of health care settings. "Practice makes perfect," as the phrase goes, likewise every nursing student needs a record book to adequately practice nursing tasks.

This record book has been created with a comprehensive approach in mind, and it will be very useful to all MSc nursing students as a tool to document their practiced skill. It will also serve as a legal evidence of their knowledge and practice as a licensed nurse, allowing them to practice nursing in the future.

This record book has been updated to include all suggested nursing procedures for all subjects. This record book has been meticulously produced in accordance with the syllabus of Indian Nursing Council. It begins with course distribution and highlights the required practical hours for each subject, giving an idea of how to set a goal to finish the processes according to the requirements. It also includes an area where students may be documented after being watched, as well as a section where students can be signed for demonstration and re-demonstration of nursing procedures and other important practical processes for course completion. This record book will surely aid all students in creating a comprehensive approach to integrating theory and practice.

This record book will help students to correlate theory with practice and develop skills to implement nursing theory with nursing process application, practice the learned scientific principles for each nursing procedure done for the patient. It will also help in re-demonstrating the learned skills in performing the procedure, developing and applying skills in assessment, planning, implementation with rationale, and evaluating nursing care in the hospital and in the community.

We are confident that all students will practice nursing techniques using this record book.

*For glorifying the role of women as nurses,
For holding the title of “The Lady with the Lamp,”
For working tirelessly for humanity—
Florence Nightingale will always be
remembered for her
selfless and memorable services to the
human race.*

Florence Nightingale
(May 1820 – August 1910)

Nursing Knowledge Tree

An Initiative by CBS Nursing Division

Coming together is a beginning. Keeping together is progress.

Working together is success!

It gives us immense pleasure to share with you that Nursing Knowledge Tree—An initiative by CBS Nursing Division, has successful established itself in the field of nursing as we have been stand as a strong contender by sharing approximately 50% of market share. This growth could not have been possible without your invaluable contribution as our reader, author, reviewer, contributor and recommender, and your outstanding support for the growth of our titles as a whole. Before I enunciate in detail, I would like to thank each and every Clinical Nurse, Academician and Nursing Student for the phenomenal support during the COVID-19 pandemic. It is all your support that instilled a sense of responsibility in us and provided us with strength and motivation to survive under the worst circumstances of the pandemic.

The last two years were the most crucial phase when the entire world stood still due to adversity of COVID-19. The normal life was in turmoil, and people had no idea what would be their next step and how long this crisis would persist. In the midst of all, a few things which nobody could stop is 'Change', which is inevitable. During the last two years, we have done a lot of innovations and put our best efforts in implementing those innovations to bring quality education and make sure that every person should have access to best possible education. It is worth mentioning that with all your support we have made some remarkable innovations in the field of nursing education, which are:

1. More quality books by the top Authors from the top institutes
2. Entered into Nursing EdTech Segment with NNL App (Nursing Next Live Application)
3. NN Social
4. Hybrid Books
5. Social Media Presence
6. Build Strong Community (Faculty/Student Ambassador Program)

As a publisher, we have been contributing in the field of Medical Sciences, Nursing and Allied Sciences and have many established titles in the market. Tradition is carrying forward the legacy of the old pattern and approach in the contemporary time. We broke the boundary of being a traditional publisher through innovations and changes. As far as publishing industry is concerned, we are the first to enter in **Nursing EdTech** with the Launch of **Nursing Next Live App**.

Through Nursing Next Live, we made possible the reach of quality education from Jammu and Kashmir to Kanyakumari and from Gujarat to Arunachal Pradesh.

We started with the mission:

“We are bringing Learning to the People Instead People are going for the Learning”

When pandemic halted everything, the future seemed to be doomed, Nursing Next Live made it possible for the Nursing Professionals from across the nation to keep continuing their learning and helped them to achieve their dream career.

In a step toward strengthening the Nursing Segment, we have melded the four important pillars—Print, Digital, Nursing Professionals and Social Media—to work in a homogenized manner for the better future of the nursing education through:

NN Social, a community of 20K+ professionals, is an initiative of Nursing Next Live as India's knowledge-sharing network platform for the nursing segment. Nursing Next Social is curated with the aim to bring all the nursing faculty members from across the nation closer and together on a single platform. Through **NN Social**, we aim to connect the sharp minds from across the nation to contribute their knowledge for the better future of Nursing Professions. With NN Social **India's top-notch societies, like TNAI, SOCN, NTA, KINS, etc. are associated with us**. Apart from this, NN Social has a strong network of 100+ authors, 500+ reviewers and contributors. They all are dedicated and committed as we are, toward imparting quality nursing education.

In the era of digitalization, to make study interactive and convenient, we have conceptualized the idea of **Hybrid Edition of the books**. In this series, our many bestseller titles are available in the hybrid form. This hybrid learning is a blended learning wherein printed booklets are thoughtfully integrated with the digital support to reconceptualize the learning method in a more interactive manner with added values to knowledge. Hybrid edition is an endeavor to facilitate the next level of preparation for any nursing competitive exams through quality content, flexibility, customization and engaging interactive learning experiences.

We have also increased our **social media presence** through meaningful and innovative ideas and are committed to assist the nursing professionals in gaining and sharing the knowledge. We have taken the initiative to learn from the experience of the others and started **NNL Talks**. It is a platform where every nursing professional who has done exceptionally well in his/her career, toppers of any Nursing Exams

and those who manage themselves in all the odds and stand firm and determined and succeed in his/her life, can share the success journey. We aim to motivate, educate and encourage the nursing professionals through various activities and posts on our social media platform.

Whatever initiative we take, we always make sure that it is for a noble cause of promoting the quality education accessible to everyone.

Today we can say this with confidence, we “CBS Publishers & NNL” have an edge over all other Indian and International Publishers. Our Approach, Vision, Mission, Concept, Content, Reach, Ideas all have a single goal that is better nursing education can lead to a better healthcare system.

Long way to go.... Together!

Looking forward to invite more young and experienced minds who can join us as Authors, Reviewers, Contributors, and Faculties and accomplish our mission of providing quality nursing education to all.

With Best Wishes

Mr Bhupesh Aarora

Sr. Vice President – Publishing & Marketing
(Health Sciences Division)
