<i>Preface to the Sixth Edition</i>	<i>ix</i>
<i>Preface to the First Edition</i>	<i>xi</i>
1. EFFECTIVE COMMUNICATION WITH CHILD AND CARETAKERS	1
1.1 Defining Communication 1	
1.2 Importance of Communication Skills 1	
1.3 Process of Communication 2	
1.4 Giving Difficult News to Parents 6	
2. HISTORY-TAKING IN PEDIATRICS	10
2.1 Objectives, Process, and Sequence of History-taking 10	
2.2 Components of History-taking 12	
2.3 Analysis of History: Making a Broad Hypothesis 28	
2.4 Presenting the History 31	
3. EVALUATION OF ADOLESCENTS	32
3.1 Importance of Adolescence 32	
3.2 History-Taking in Adolescents 33	
3.3 Psychosocial Screening 35	
3.4 Mental Health Issues 38	
3.5 Adolescents with Chronic Disorders 40	
3.6 Physical Examination in Adolescents 40	
3.7 Overweight and Obesity 41	
3.8 Adolescents, Social Media, and Screen Time 42	
4. ASSESSMENT OF DIET AND FEEDING PRACTICES	44
4.1 Importance and Objectives of the Dietary History 44	
4.2 Assessment of Diet and Feeding Practices in Infants Less Than 6 Months 45	
4.3 Assessment of Dietary Intake in Children More Than 6 Months 48	
5. ANTHROPOMETRY: ASSESSMENT OF GROWTH	63
5.1 Introduction 63	
5.2 Statistical Principles in Assessment of Growth 63	
5.3 Anthropometric Parameters, Tools, and Procedures 66	
5.4 Interpretation of Growth Measurements 77	
5.5 Evaluation of Dental Growth 83	
5.6 Assessment of Nutrition by Anthropometry 83	
5.7 Recognizing Disorders of Physical Growth 90	
5.8 Assessment of Sexual Maturity 96	
6. DEVELOPMENTAL ASSESSMENT	120
6.1 Importance of Developmental Assessment 120	
6.2 Normal Development 122	
6.3 History of Development 132	
6.4 Developmental Examination 135	
6.5 Process of Assessment 137	
6.6 Interpretation of Developmental Assessment 145	

- 7.1 Preparing for Examination 148
- 7.2 The First Impression 149
- 7.3 Vital Parameters 150
- 7.4 General Markers of Disease 159
- 7.5 Head-to-Toe Examination 167
- 7.6 Peripheral Signs of Micronutrient Deficiency 185
- 7.7 Looking for Dysmorphism and Congenital Abnormalities 188

8. EXAMINATION OF THE RESPIRATORY SYSTEM**198**

- 8.1 Introduction 198
- 8.2 Common Symptoms Related to the Respiratory System 198
- 8.3 Relevant Anatomy and Surface Landmarks 204
- 8.4 General Examination Relevant to the Respiratory System 206
- 8.5 Examination of the Chest 211
- 8.6 Physical Findings in Common Respiratory Conditions 222
- 8.7 Investigations Related to the Respiratory System 224
- 8.8 Special Considerations Related to the COVID-19 Pandemic 234

9. EVALUATION OF THE CARDIOVASCULAR SYSTEM**235**

- 9.1 Approaching a Child with Possible Cardiovascular Disorder 235
- 9.2 History-taking 236
- 9.3 Physical Examination 244
- 9.4 Pulse and Blood Pressure 258
- 9.5 Examination of the Precordium 266
- 9.6 Heart Sounds 277
- 9.7 Heart Murmurs 283
- 9.8 Specific Valvular Lesions 288
- 9.9 Cardiac Diagnosis 291
- 9.10 Prenatal Diagnosis of Cardiovascular Disorder 295
- 9.11 Neonatal Screening for Congenital Heart Defect 296

10. EXAMINATION OF THE ABDOMEN**297**

- 10.1 Aim and Scheme of Abdominal Examination 297
- 10.2 Common Symptoms Related to the Abdomen 297
- 10.3 Relevant Anatomy and the Landmarks 304
- 10.4 General Examination Relevant to Abdominal Examination 304
- 10.5 Examination of the Abdomen 307
- 10.6 Relevant Systemic Examination 320

11. EXAMINATION OF THE NERVOUS SYSTEM**323**

- 11.1 Aim and Scheme of Neurological Examination 323
- 11.2 Common Symptoms Related to Central Nervous System 323
- 11.3 Key Concepts in Anatomy and Physiology 330
- 11.4 Examination in Neurological Disorders 339
- 11.5 Consciousness and Higher Mental Function 341
- 11.6 Cranial Nerve Examination 351
- 11.7 Motor System 374
- 11.8 Involuntary Movements 394
- 11.9 The Sensory System 395
- 11.10 Cerebellar Signs 398
- 11.11 Autonomic Nervous System 401
- 11.12 Meningeal Signs 402

- 11.13 Head and Spine 404
- 11.14 Localization of Neurological Lesion 405
- 11.15 The Final Diagnosis 410

12. EXAMINATION OF THE EYE 412

- 12.1 Aim and Scheme of Eye Examination 412
- 12.2 Common Symptoms Related to the Eye 412
- 12.3 Examination of the Eye 417
- 12.4 Examination of the Fundus Oculi 427
- 12.5 Assessment of Intraocular Pressure 432
- 12.6 Assessment of Color Vision 432
- 12.7 Assessment of Visual Fields 433
- 12.8 Ocular Manifestations of Systemic Disorders 434

13. EVALUATION OF THE EAR, NOSE, AND THROAT 436

- 13.1 Aim and Scheme of Ear, Nose, Throat Examination 436
- 13.2 Common Symptoms Related to the Ear 436
- 13.3 Examination of the Ear 438
- 13.4 Common Symptoms Related to the Nose 443
- 13.5 Examination of the Nose 445
- 13.6 Symptoms Related to the Oral Cavity and Oropharynx 446
- 13.7 Examination of the Oral Cavity and Oropharynx 447
- 13.8 Symptoms of Laryngeal Involvement 448
- 13.9 Examination of the Larynx 449
- 13.10 Newborn Hearing Screening 449

14. EXAMINATION OF THE SKIN 451

- 14.1 Aim, Importance, and Scheme of Skin Examination 451
- 14.2 History and Examination of Cutaneous Lesions 451
- 14.3 Morphology of Skin Lesions 452
- 14.4 Skin Hemorrhages and Vascular Lesions 468
- 14.5 Hair and Nails 470
- 14.6 Important Clinical Signs and Diagnostic Methods 474

15. EXAMINATION OF THE MUSCULOSKELETAL SYSTEM 476

- 15.1 Introduction 476
- 15.2 Pediatric Assessment of Gait, Arms, Legs and Spine (pGALS)—A Screening Tool 476
- 15.3 Physiological Parameters and Variations in Children 477
- 15.4 Examination of the Spine 485
- 15.5 Examination of the Shoulder Joint 487
- 15.6 Examination of the Elbow Joint 490
- 15.7 Examination of the Wrist Joint 491
- 15.8 Examination of the Hip Joint 493
- 15.9 Examination of the Knee Joint 497
- 15.10 Examination of the Ankle and Foot 501

16. EXAMINATION OF THE NEWBORN 504

- 16.1 Definitions 504
- 16.2 History-Taking 505
- 16.3 When to Evaluate? 509
- 16.4 Assessment of Vital Signs 514
- 16.5 Assessment of Weight and Gestation 519
- 16.6 General Examination 533

- 16.7 Head-to-Toe Examination 536
- 16.8 Systemic Examination 547
- 16.9 Examination of the Neurological System 550
- 16.10 The 7-Point Rapid Newborn Assessment 554

17. CLINICAL APPROACH TO COMMON CASES

558

- 17.1 Child with Fever 558
- 17.2 Child with Loose Stools 566
- 17.3 Child with Edema 569
- 17.4 Child with Pallor 572
- 17.5 Child with Congenital Heart Disease (CHD) 578
- 17.6 Child with Seizures 580
- 17.7 Child with Hemiplegia 583

18. PRACTICAL PROCEDURES

589

- 18.1 Informed Consent 589
- 18.2 Universal Precaution and Asepsis Routines 590
- 18.3 Intravascular Access 596
- 18.4 Intraosseous Access 604
- 18.5 Sampling Procedures 605
- 18.6 Administration of Medications 607
- 18.7 Fluid Therapy 611
- 18.8 Oxygen Therapy 617
- 18.9 Nasogastric Tube Insertion 621
- 18.10 Neonatal Resuscitation 622
- 18.11 Pediatric Basic Life Support (BLS) 632
- 18.12 Removal of Foreign Body 634
- 18.13 Urinary Procedures 637
- 18.14 Lumbar Puncture 638
- 18.15 Ascitic Tap (Paracentesis) 640
- 18.16 Pleural Aspiration (Thoracocentesis) 641
- 18.17 Bone Marrow Aspiration and Biopsy 642
- 18.18 Liver Biopsy 644
- 18.19 Kidney Biopsy 645
